

Swift Academies

Data Retention and Destruction Policy

Accepted by: Board of Directors
Approving Body: Board of Directors
Committee: Standards
Review Cycle: 1 year
Date last reviewed October 2021
Date for next review: October 2022

Statement of intent

Swift Academies are committed to maintaining the confidentiality of its information and ensuring that all records within the school are only accessible by the appropriate individuals. In line with the requirements of the GDPR, the school also has a responsibility to ensure that all records are only kept for as long as is necessary to fulfil the purpose(s) for which they were intended.

The school has created this policy to outline how records are stored, accessed, monitored, retained and disposed of, in order to meet the school's statutory requirements.

This document complies with the requirements set out in the GDPR, which is effective of 25 May 2018.

Legal framework

This policy has due regard to legislation including, but not limited to, the following:

General Data Protection Regulation

Freedom of Information Act 2000

Limitation Act 1980 (as amended by the Limitation Amendment Act 1980) This

policy also has due regard to the following guidance:

Information Records Management Society (2016) 'Information Management Toolkit for Schools'

DfE (2018) 'Data protection: a toolkit for schools'

This policy will be implemented in accordance with the following school policies and procedures:

GDPR Policy

E-safety Policy

Responsibilities

The school as a whole has a responsibility for maintaining its records and record-keeping systems in line with statutory requirements.

The Head Teacher/Head of School holds overall responsibility for this policy and for ensuring it is implemented correctly.

The data protection officer (DPO) is responsible for the management of records at Swift Academies

Our data protection officer is: Mrs

S Jones, Trust Business Manager

sjs@swiftacademies.org.uk

The DPO is responsible for promoting compliance with this policy and reviewing the policy on an annual basis, in conjunction with the Head Teacher/Head of School

The DPO is responsible for ensuring that all records are stored securely, in accordance with the retention periods outlined in this policy, and are disposed of correctly.

All staff members are responsible for ensuring that any records for which they are responsible for are accurate, maintained securely and disposed of correctly, in line with the provisions of this policy

Management of pupil records

Pupil records are specific documents that are used throughout a pupil's time in the education system – they are passed to each school that a pupil attends and includes all personal information relating to them, e.g. date of birth, home address, as well as their progress and achievement.

Pupil files may contain any or all of the following information:

- Forename, surname, gender and date of birth
- Unique pupil number
- Ethnic origin, religion and first language
- Any preferred names
- Position in their family, e.g. eldest sibling
- Emergency contact details and the name of the pupil's doctor
- Any allergies or other medical conditions that are important to be aware of
- Names of parents, including their home address(es) and telephone number(s)
- Name of the school, admission number, the date of admission and the date of leaving, where appropriate
- Any other agency involvement, e.g. speech and language therapist
- Admissions form
- Details of any SEND
- If the pupil has attended an early years setting, the record of transfer
- Annual written reports to parents
- National curriculum and agreed syllabus record sheets
- Notes relating to major incidents and accidents involving the pupil
- Any information about an education, health and care (EHC) plan and support offered in relation to the EHC plan
- Any information relating to exclusions
- Any correspondence with parents or external agencies relating to major issues, e.g. mental health

- Notes indicating that records of complaints made by parents or the pupil are held The following information will be stored separately in the school office:
- Absence notes
- Parental and, where appropriate, pupil consent forms for educational visits, photographs and videos (if applicable), etc.

Hard copies of disclosures and reports relating to child protection are held in a securely locked filing cabinet in a locked room

Hard copies of complaints made by parents or pupils are stored in a file in a secure area within the school.

Actual copies of accident and incident information are stored separately on the school's management information system and held in line with the retention periods outlined in this policy. An additional copy may be placed in the pupil's file in the event of a major accident or incident.

The school will ensure that no pupil records are altered or amended before transferring them to the next school that the pupil will attend.

The only exception to the above is if any records placed on the pupil's file have a shorter retention period and may need to be removed. In such cases, the School Manager will remove these records.

Electronic records relating to a pupil's record will also be transferred to the pupils' next school using the Department for Education Schools to Schools service.

Primary schools only (where applicable). The school will not keep any copies of information stored within a pupil's record, unless there is ongoing legal action at the time during which the pupil leaves the school. The responsibility for these records will then transfer to the next school that the pupil attends.

If any pupil attends the school until statutory school leaving age, the school will keep the pupil's records until the pupil reaches the age of 25 years.

The school will, wherever possible, avoid sending a pupil record by post. Where a pupil record must be sent by post, it will be sent by registered post, with an accompanying list of the files included. The school it is sent to is required to sign a copy of the list to indicate that they have received the files and return this to the school.

Retention of pupil records and other pupil-related information

The table below outlines the school’s retention periods for individual pupil records and the action that will be taken after the retention period, in line with any requirements.

Identifying information

Under the GDPR, all individuals have the right to data minimisation and data protection by design and default – as the data controller, the school ensures appropriate measures are in place in order for individuals to exercise this right.

Wherever possible, the school uses pseudonymisation, also known as the ‘blurring technique’, to reduce risk of identification.

Once an individual has left the school, if identifiers such as names and dates of birth are no longer required, these are removed or less specific personal data is used, e.g. the month of birth rather than specific date – the data is blurred slightly.

Where data is required to be retained over time, e.g. attendance data, where possible the school removes any personal data not required and keeps only the data needed – in this example, the statistics of attendance rather than personal information.

Storing and protecting information

The DPO will undertake a risk analysis to identify which records are vital to school management and these records will be stored in the most secure manner.

The ICT support staff will conduct a back-up of information on a nightly basis to ensure that all data can still be accessed in the event of a security breach, e.g. a virus, and prevent any loss or theft of data.

Where possible, backed-up information will be stored on separate servers in different areas of the school site and copies of the data stored offline.

Confidential paper records are kept in a locked filing cabinet, drawer or safe, with restricted access.

Confidential paper records are not left unattended or in clear view when held in a location with general access.

Digital data is coded, encrypted or password-protected, both on a local hard drive and on a network drive that is regularly backed-up off-site.

Where data is saved on removable storage or a portable device, the device is kept in a locked and fireproof filing cabinet, drawer or safe when not in use.

Memory sticks are not used to hold personal information unless they are password-protected and fully encrypted.

All electronic devices are password-protected to protect the information on the device in case of theft.

Where possible, the school enables electronic devices to allow the remote blocking or deletion of data in case of theft.

Staff and governors do not use their personal laptops or computers for school purposes unless they work remotely using encrypted memory sticks as storage devices and abide by the guidelines within the Bring Your Own Device policy.

All members of staff are provided with their own secure login and password, and every computer regularly prompts users to change their password.

Emails containing sensitive or confidential information are password-protected to ensure that only the recipient is able to access the information. The password will be shared with the recipient in a secure manner.

Circular emails to parents are sent blind carbon copy (bcc), so email addresses are not disclosed to other recipients.

When sending confidential information by fax, members of staff always check that the recipient is correct before sending.

Where personal information that could be considered private or confidential is taken off the premises, to fulfil the purpose of the data in line with the GDPR, either in an electronic or paper format, staff take extra care to follow the same procedures for security, e.g. keeping devices under lock and key. The person taking the information from the school premises accepts full responsibility for the security of the data.

Before sharing data, staff always ensure that:

- They have consent from data subjects to share it.
- Adequate security is in place to protect it.
- The data recipient has been outlined in a privacy notice.

All staff members will implement a ‘clear desk policy’ to avoid unauthorised access to physical records containing sensitive or personal information. All confidential information will be stored in a securely locked filing cabinet, drawer or safe with restricted access.

Under no circumstances are visitors allowed access to confidential or personal information. Visitors to areas of the school containing sensitive information are supervised at all times.

The physical security of the school’s buildings and storage systems, and access to them, is continuously monitored and reviewed. If an increased risk in vandalism, burglary or theft is identified, this will be reported to the Head Teacher/Head of School and extra measures to secure data storage will be put in place.

The school takes its duties under the GDPR seriously and any unauthorised disclosure may result in disciplinary action.

The DPO is responsible for continuity and recovery and measures are in place to ensure the security of protected data.

Any damage to or theft of data will be managed in accordance with the school’s GDPR Data Protection policy.

Accessing information

The School/Trust is transparent with data subjects, the information we hold and how it can be accessed.

All members of staff, parents of registered pupils and other users of the school, e.g. visitors and third-party clubs, are entitled to:

- Know what information the school holds and processes about them or their child and why.
- Understand how to gain access to it.
- Understand how to provide and withdraw consent to information being held.
- Understand what the school is doing to comply with its obligations under the GDPR.

All members of staff, parents of registered pupils and other users of the school and its facilities have the right, under the GDPR, to access certain personal data being held about them or their child.

Personal information can be shared with pupils once they are considered to be at an appropriate age and responsible for their own affairs; although, this information can still be shared with parents.

Pupils who are considered to be at an appropriate age to make decisions for themselves are entitled to have their personal information handled in accordance with their rights.

The school will adhere to the provisions outlined in the school's Data Protection Policy when responding to requests seeking access to personal information.

Information audit

The school will conduct information audits on an annual basis against all information held by the school to evaluate the information the school is holding, receiving and using, and to ensure that this is correctly managed in accordance with the GDPR. This includes the following information:

- Paper documents and records
- Electronic documents and records
- Databases
- Microfilm or microfiche
- Sound recordings
- Video and photographic records
- Hybrid files, containing both paper and electronic information

The information audit may be completed in a number of ways, including, but not limited to:

- Interviews with staff members with key responsibilities – to identify information and information flows, etc.
- Questionnaires to key staff members to identify information and information flows, etc.
- A mixture of the above

The DPO is responsible for completing the information audit. The information audit will include the following:

- The school's data needs

- The information needed to meet those needs
- The format in which data is stored
- How long data needs to be kept for
- Vital records status and any protective marking
- Who is responsible for maintaining the original document

The DPO will consult with staff members involved in the information audit process to ensure that the information is accurate.

Once it has been confirmed that the information is accurate, the DPO will record all details on the school's Information Asset Register.

The information displayed on the Information Asset Register will be shared with the Head Teacher/Head of School to gain their approval.

Disposal of data

Where disposal of information is outlined as standard disposal, this will be recycled appropriate to the form of the information, e.g. paper recycling, electronic recycling.

Where disposal of information is outlined as secure disposal, this will be shredded or pulped and electronic information will be scrubbed clean and, where possible, cut.

Where the disposal action is indicated as reviewed before it is disposed, the DPO will review the information against its administrative value – if the information should be kept for administrative value, the DPO will keep a record of this.

If, after the review, it is determined that the data should be disposed of, it will be destroyed in accordance with the disposal action outlined in this policy.

Where information has been kept for administrative purposes, the DPO will review the information again after three years and conduct the same process. If it needs to be destroyed, it will be destroyed in accordance with the disposal action outlined in this policy. If any information is kept, the information will be reviewed every three subsequent years.

Where information must be kept permanently, this information is exempt from the normal review procedures

Monitoring and review

Any changes made to this policy will be communicated to all members of staff and the governing board.
